Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Sunday 28 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cold again today but less windy than yesterday.

Today:
Most areas seeing some sunshine at times, but some snow for a time over parts of Scotland and northwest England this morning and parts of the Midlands and southern England this afternoon. Wintry showers in the east. Feeling cold.

Tonight:
Cold and frosty. Further wintry showers in the east whilst early evening snow in the south clears. Cloud and rain into Northern Ireland and Scotland later, some inland snow Scotland.

Monday:
Early cloud and outbreaks of rain over Northern Ireland and Scotland spreading into northern England, Wales and the southwest. Elsewhere, dry and brighter for a time but cloudier later.

Outlook for Tuesday to Thursday:
Cloudy on Tuesday with rain spreading southeast. Turning colder again on Wednesday with blustery showers, wintry in the north. Fine for most thereafter until more rain arrives later on Thursday.
